Danish Simplicity

Micky Max

nord kōmfort

Every day we transform our Danish design traditions and love for comfort into beautiful furniture that can last for generations. This we have done for more than three decades.

No two pieces are exactly alike – the design and details are entirely up to you!
The inside, however, stays the same:
A product made with care for its surroundings.

Because quality to us is much more than creating comfortable and modern furniture. It should be made under good conditions, so you can personalize your new furniture with peace of mind.

Your New Favorite Spot Awaits!
